

Legal System Abuse:

A Problem We Can Solve

Insurance agents see it every day: rising premiums, frustrated clients, and policyholders being pulled into unnecessary lawsuits. Legal system abuse is a major driver of these problems and too few people understand its impact.

How You Can Help:

Educate clients about how legal system abuse impacts them

Advocate for fair legal reform

Write an op-ed piece or volunteer yourself as an expert for local media

Have informed conversations with clients and legislators

Nearly **6 in 10** agents say customers are unaware of how legal system abuse affects their insurance costs. Yet the numbers are staggering:

- **\$366.8 billion** in business liability costs (2022)
- **\$162.1 billion** in individual costs
- Cost to the average American family: **\$5,135 per year**

Why Agents Should Care:

Legal system abuse leads to:

- Higher premiums
- Limited insurance availability
- Larger deductibles
- Slower claims and lower payouts for real victims
- Foreign investors profiting off U.S. policyholders
